Saint Patrick's Day, feast day (March 17) of St. Patrick, patron saint of Ireland. Born in Roman Britain in the late 4th century, he was kidnapped at the age

of 16 and taken to Ireland as a slave. He escaped but returned about 432 to convert the Irish to Christianity. Every year on March 17, the Irish and the Irish-at-heart across the globe observe St. Patrick's Day. What began as a religious feast day for the patron saint of Ireland has become an

international festival celebrating Irish culture with parades, dancing, special foods and a whole lot of green. St. Patrick's revelers thought wearing green made one invisible to leprechauns, fairy creatures who would pinch anyone they could see (anyone not wearing green) in this time and age, it's people began pinching those who didn't wear green.
